Efficacy of MC-Glucan

• **Moisturizing**

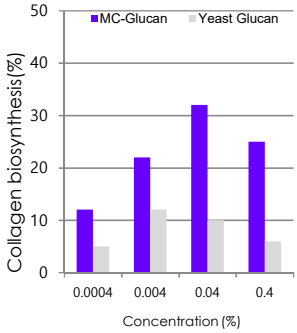

☞ Sixty μℓ of MC-Glucan solution(0.4%) or hyaluronic acid solution(0.5%) were applied to the forearm skin and covered it with tape. The skin hydration was evaluated by conductance measurements

• **Anti-wrinkle**

☞ Influence of MC-Glucan on proliferation of the human skin cell and the fibroblast

☞ Increased collagen synthesis after the treatment of MC-Glucan and yeast Glucan
